

ARITRA DATTA

Senior Full-Stack Developer | Angular • Node.js • AI-Native Development

Kolkata, India • aritradata0@gmail.com • +91 8016685983 • linkedin.com/in/aritra-datta-584468229

SUMMARY

Senior Full-Stack Developer with 4.5 years of experience building and scaling production applications with Angular (v9-v21) and Node.js, including platforms serving **300K+ users**. Currently part of an AI-first R&D team, shipping full-stack products end-to-end (NestJS, React, React Native) through agentic AI development, with **~10 apps/POCs delivered in 6 months**. Strong in MongoDB, real-time systems, payment workflows, and API optimization.

SKILLS

Frontend: Angular (v9-v21), TypeScript, JavaScript, HTML5, CSS3, RxJS, Signals, rxResource, Angular Material, Bootstrap, SSR (Angular Universal), Lazy Loading, Role-based UI, Reactive & Complex Forms, Chart.js

Backend: Node.js, Express.js, MongoDB (Schema Design, Aggregation, Atlas Search), REST API Design & Optimization, Socket.io (Real-time), Agenda (Job Scheduling), OpenAI APIs (Prompt-based Prediction, TTS), Google Cloud Text-to-Speech

AI-Native Development: OpenAI Codex (agentic coding), Figma MCP (design-to-code), prompt-driven development, AI output review & validation; AI-assisted delivery: NestJS, React, React Native, Playwright (E2E), Maestro (mobile QA), backend unit testing, GitHub Actions (CI/CD, TestFlight automation)

Cloud & Integrations: AWS S3, Cloudflare R2, Firebase (Push Notifications, Admin SDK), Stripe & PayPal (Subscriptions & Payments), FedEx API (Shipments, Labels, PDFs)

Tools: Git, GitHub, GitLab, Bitbucket, Jira, Postman, Swagger, VS Code

WORK EXPERIENCE

Senior Application Developer

Feb 2022 - Present

Webskitters Technology Solutions Pvt. Ltd.

Kolkata, India

Full-stack development of production Angular + Node.js platforms: frontend architecture, backend API design, real-time systems, payment workflows, background jobs, and performance optimization for products with **300K+ users**.

R&D - AI-First Development (Feb 2026 - Present)

- Selected into the company's R&D team operating under a 100% AI-generated-code mandate using **OpenAI Codex**
- Shipped **~10 applications/POCs in 6 months** across NestJS, React, and React Native by directing agentic AI workflows
- Converted Figma designs directly into production frontends using **Figma MCP**
- Drove AI-assisted QA and DevOps: Playwright E2E tests, Maestro mobile tests, backend unit tests, and **GitHub Actions** pipelines automating TestFlight builds for React Native
- Reviewed and validated all AI output against core Node.js and MongoDB expertise

PROJECTS

Blue Tees Golf

Large-scale consumer product platform

Role: **Senior Full-Stack Developer**

- Worked on the Angular 20 admin panel and Node.js backend for a platform with **300K+ users**
- Implemented real-time data features using Socket.io
- Optimized critical APIs and replaced inefficient queries with **MongoDB Atlas Search**, significantly reducing response times
- Built Agenda-based background job scheduling
- Integrated "Scout AI" golf prediction using OpenAI APIs with prompt-based workflows
- Implemented text-to-speech using OpenAI TTS and Google Cloud TTS based on user preference; AWS S3 for secure file storage

Commission-gg

Digital marketplace for artists

Role: **Backend-heavy Full-Stack Developer**

- Designed the entire backend architecture with Node.js, Express, and MongoDB
- Implemented role-based authentication for artists and buyers
- Built a milestone-based commission system with an escrow-style payment flow
- Integrated **Stripe and PayPal** for direct payments and subscriptions
- Developed real-time chat (Socket.io), file storage (Cloudflare R2), push notifications (Firebase), and scheduled jobs (Agenda)

Gold Reliance LLC

Online jewellery buying & selling platform

Role: **Full-Stack Developer**

- Built the Angular 18 frontend and Node.js backend
- Developed jewellery listing features with images, gold value, and carat details
- Implemented web push notifications using Angular Service Worker and Firebase
- Built backend APIs serving mobile, web, and admin clients
- Integrated **FedEx APIs** for shipment creation, return labels, and PDF generation
- Built daily gold price tracking with trend visualization using Chart.js

EDUCATION

B.Tech in Computer Science & Engineering

Jun 2015 - May 2019

JIS College of Engineering
